The three diagrams show a forklift operator performing different tasks in a warehouse setting with a multi-tiered rack. In the first diagram, the operator is positioned in front of the rack, pushing a load from the front. In the second diagram, the operator is positioned behind the rack, pulling a load towards them. In the third diagram, the operator is positioned to the side of the rack, pulling a load outwards.

从外側將貨物置下自倉庫入。
Put the goods on cart from the front and push in.

到後方的貨品將車頭拉向貨架靠緊，多車位車需稍偏斜。
Goods stored later well pull the forner goods forward, multi-carriage need to be slightly tilted.

向外側拉貨物取出，緊要時由內向外拉。
When the front goods are taken away, inside cart will pull goods outside.
